

THE BIG IDEA

The deeper standard — *in subsea integrity.*

A 12-week LinkedIn-led campaign positioning Subsea Solutions as Perth's most accountable IRM partner ahead of FY28 tender season.

THE INSIGHT

Operators do not buy capability — they buy assurance.

Conversations with five Perth-based asset integrity managers surfaced a consistent frustration: every IRM vendor's pitch deck reads the same. ROV fleets, certifications, safety stats — undifferentiated.

What operators actually weigh is **specific evidence** of how a contractor handles the things that go wrong: weather windows, scope creep, anomaly reporting, mobilisation under pressure.

The campaign earns attention by showing — not claiming — the everyday operational standards that separate dependable contractors from interchangeable ones.

STRATEGY

Earned attention → warm pipeline → AOG conversion.

Weeks 1–4: Establish category point of view through opinion posts and statistic-led tiles. Goal is recognition, not response.

Weeks 5–8: Deepen with case-study evidence and behind-the-scenes operational detail. Goal is credibility.

Weeks 9–12: Convert warm audience to AOG 2026 booth visit and tender conversations. Goal is qualified meetings.

TARGETS & MEASUREMENT

Lead pipeline — not vanity engagement.

METRIC	12-WK TARGET
LinkedIn followers (Co. page)	+420
Post engagement rate	≥ 4.2%
Email list (newsletter)	+180
AOG booth meetings booked	22
Qualified pipeline created	\$3.5M+

01

WEEKS 1–4 · ESTABLISH

Point of view

Launch post + 3 opinion tiles + 4 statistic tiles. Email newsletter goes live. Goal: 2,000 reach per post, baseline established.

02

WEEKS 5–8 · DEEPEN

Evidence & proof

Case study carousel + service spotlight + 5-question infographic + nurture sequence #1–2 go out. Goal: 4.0% engagement, 80 new followers.

03

WEEKS 9–12 · CONVERT

AOG & tender push

AOG invitation tiles + booth countdown + paid LinkedIn boost to warm audience. Nurture sequence #3–4. Goal: 22 booth meetings.
